Assembly Hall			29.0m X 12.5m 400 m 4300 sq ft
Great Hall & Assembly Hall	1000	750	

Seasonally, tents may be available along our wharf side locations.

The newly built Marco Polo Cruise Terminal, on the renovated Saint John waterfront blends with the nineteenth-century architecture of the historic port city, which surrounds it. The building resides alongside the award winning pedestrian trail named Harbour Passage and is also the new home of the Saint John Port Authority Executive offices.

In its inaugural year, 2009 the Marco Polo Cruise Terminal will host over 190,000 cruise passengers, arriving in during 74 cruise ship visits to the city of Saint John and surrounding communities.

In addition to its primary purpose as a cruise terminal, the Marco Polo Cruise Terminal is situated ideally as an off-site venue for corporate receptions, Maritime-theme dinners, weddings and live entertainment trade shows, food festivals, automobile viewing and many other possibilities.

The first floor of the building features over 10,200 square feet, with two distinct areas suitable for events of varying types and sizes. Both areas feature natural elements of décor, three-meter high Douglas fir wainscoting and polished concrete flooring warmed with radiant heating.

The Great Hall, which is 5900 square feet, features 35-foot ceilings with Palladian-style windows, flooding the interior with natural light, and providing views overlooking the harbour, Water Street and Harbour Passage. The Assembly Hall, which is 4300 square feet, features 20 foot-ceilings with floor-to-ceiling windows and a small, well equipped warming/holding kitchen which is adjacent for catering service.

Exterior features of the building include areas with stamped concrete patios and walkways, decorative iron fencing, lush landscaped sitting "spots" and ample parking in the adjacent south side lot. The facility is 100% smoke free and confirms to accessibility regulations.
